ARC FLASH SUITS | BLANKETS | GLOVES | SAFETY LOCKOUT

# SAFETY A FAMILY TRADITION SINCE 1978

Oberon was founded in 1978 by Jack Hirschmann to offer a personal protection line of products. It began with the creation of the innovative Face-Fit® face shield. This design ushered in the idea that face shields could be made to protect the user from specific and unique hazards. Later, Oberon was approached by NASA to create a solution to the blinding effects of UV radiation during early space flights. Preliminary tests demonstrated goggles would be too bulky to be worn inside helmets, so a thin layer of gold was applied to the astronaut's visors. This technology gave rise to Oberon's "Gold Shield" and was found to be useful in space, but also provided solutions for radiant heat hazards in the workplace commonly found in foundries and steel mills.

In 1985, Oberon invented the first Arc Flash face shield. This idea started with a phone call from an electric utility, which had experienced arc flash burns on their meter installers. The utility needed a way to protect their workers while allowing them to perform common electrical work tasks. Oberon answered the call and eventually created the first arc flash suit.

The idea has now grown into an industry providing comprehensive safety for electricians, linemen and contractors across utilities, industry and municipalities around the world. Over the last 30 years Oberon has continued to learn about the electrical safety business and the need for solutions in many different places around the world. With the implementation of rules and regulations like NFPA 70E and CSZ Z462 related to safety in the workplace, Oberon has sought to develop a comprehensive offering that would adhere to these guidelines and protect workers while performing common work tasks.

The innovation continues today with invention of our True Color Grey (TCG™) Arc Flash Face Shields. With Oberon's TCG™ nearly clear face shield design the user can now see all the colors of the wires they are working on. This unique design solved an age old problem for electrical workers and also created a new industry standard that has raised the bar for all manufacturers in the industry today.

# OUR ROOTS

1978

Jack Hirschmann established Oberon Company

1983

Invented first Gold Shield

1985

Invented the first Arc Flash Suit Hood

2012

Invented the first True Color Grey Arc Flash Face Shield

2016

True Color Grey Arc Flash Suit Series created

2020

Developed GES8+ Series Gas Extraction Suit

Oberon is not just a manufacturing company, we are an engineering company that develops innovative electrical safety solutions. We participate on many national standards committees and have a team of experts who strive every day to improve our Arc Flash PPE product line. At Oberon it is our mission to protect the welfare of the individual while adding value to a company's overall safety program.

Oberon is an **ISO 9001** accredited manufacturing facility and is actively involved in the **ASTM and ANSI Standards** development process as participating members on several technical committees. All of Oberon's products have been manufactured in accordance with every applicable Standard. Not only does Oberon help write these Standards, we lead by example in our research, product development, laboratory testing and manufacturing processes.

#### NFPA 70E and CSA Z462 Standards

The National Fire Protection Association and the Canadian Standards Association address the required elements of corporate electrical safety program, including training, engineering controls, work methods, and ultimately the personal protective apparel as the last line of defense for worker safety.

#### European Standards

The European Economic Area or EEA has standards for health, safety, and environmental protection. All products sold into the EEA must meet these standards and should be CE marked by the manufacturer to signify these European Standards are met.

#### ANSI Standards

The American National Standards Institute oversees the development of voluntary consensus standards for products, services, processes, systems, and personnel.

#### ASTM Standards

The American Society of Testing and Materials (ASTM) F18 Committee has developed standards covering the manufacturing, testing, care and use of arc flash PPE. Oberon's products have been certified using the most current version of every applicable ASTM testing standard and are in compliance with the overarching performance standard, ASTM F1506.

# ARC FLASH PERSONAL PROTECTION (PPE) CATEGORIES

The National Fire Protection Association (NFPA) uses four Arc Flash PPE Categories to classify ranges of arc flash hazards, and the corresponding requirements for PPE. The categories are one of the methods used in the current NFPA 70E standard to inform workers about the protection they need while working on energized equipment. CSA Z462 recently added an Arc Flash PPE Category 5 for equipment with potential incident energy levels up to 75 cal/cm<sup>2</sup>.

Each category includes a minimum arc rating value for the required PPE. This value is determined by the PPE manufacturer, and indicates the protection provided by the equipment (in cal/cm<sup>2</sup>) as the point where a worker would have a 50% probability of receiving a 2nd degree skin burn.

## PPE CATEGORY 1

### Arc-Rated Clothing

- AR long-sleeve shirt and pants or arc-rated coverall
- AR face shield or arc flash suit hood
- AR jacket, parka, rainwear or hard hat liner

### Protective Equipment

- Hard hat
- Safety glasses or safety goggles
- Hearing protection
- Heavy-duty leather gloves
- Leather footwear

### Minimum Arc Rating

4 cal/cm<sup>2</sup>

## PPE CATEGORY 2

### Arc-Rated Clothing

- AR long-sleeve shirt and pants or arc-rated coverall
- AR rated suit hood or arc rated face shield & balaclava
- AR jacket, parka, rainwear or hard hat liner

### Protective Equipment

- Hard hat
- Safety glasses or safety goggles
- Hearing protection
- Heavy-duty leather gloves
- Leather footwear

### Minimum Arc Rating

8 cal/cm<sup>2</sup>

## PPE CATEGORY 3

### Arc-Rated Clothing

- AR long-sleeve shirt, pants, and hood or arc rated coverall and hood
- AR suit consisting of hood, coat, bib overalls, or hood and coveralls
- AR gloves
- AR jacket, parka, rainwear or hard hat liner

### Protective Equipment

- Hard hat
- Safety glasses or safety goggles
- Hearing protection
- Heavy-duty leather gloves
- Leather footwear

### Minimum Arc Rating

25 cal/cm<sup>2</sup>

## PPE CATEGORY 4

### Arc-Rated Clothing

- AR long-sleeve shirt, pants, and hood or arc-rated coverall & hood
- AR suit consisting of hood, coat, bib overalls, or hood & coveralls
- AR gloves
- AR jacket, parka, rainwear or hard hat liner

### Protective Equipment

- Hard hat
- Safety glasses or safety goggles
- Hearing protection
- Heavy-duty leather gloves
- Leather footwear

### Minimum Arc Rating

40 cal/cm<sup>2</sup>

## PPE CATEGORY 5

### Arc-Rated Clothing

- AR long-sleeve shirt, pants, and hood or arc-rated coverall & hood
- AR suit consisting of hood, coat, bib overalls, or hood & coveralls
- AR gloves
- AR jacket, parka, rainwear or hard hat liner

### Protective Equipment

- Hard hat
- Safety glasses or safety goggles
- Hearing protection
- Heavy-duty leather gloves
- Leather footwear

### Minimum Arc Rating

75 cal/cm<sup>2</sup>

### Minimum Arc Rating

100 cal/cm<sup>2</sup>

### Minimum Arc Rating

140 cal/cm<sup>2</sup>

\*Energized electrical work over 40 cal/cm<sup>2</sup> requires an incident energy analysis to be performed. Once this analysis has been done the appropriate PPE can be selected from the chart above by matching the calculated incident energy level with the corresponding PPE.

\*Energized electrical work over 40 cal/cm<sup>2</sup> requires an incident energy analysis to be performed. Once this analysis has been done the appropriate PPE can be selected from the chart above by matching the calculated incident energy level with the corresponding PPE.

## MEASURING INSTRUCTIONS

### 1. Use a Fabric Measuring Tape

**Chest:** Measure around the chest just under the arms and across the shoulder blades.

**Waist:** Measure around the natural waistline.

**Height:** Measure the total height of the worker. You can tape one measuring tape to a wall and have the worker stand up straight against it.

#### Worker Body Measurement:

The worker's actual measurements determined using a fabric measuring tape.

#### Coat, Bibs & Coverall Measurements:

Garment dimensions are larger than the user's measurements to allow space for movement.

### 2. Select the Size

After measuring the worker select the size using the tables above. Each of these numbers represent the maximum measurement per size. Always round up and use the larger of either Chest or Waist.

### 3. Select the Height

All suits are sold as a Regular size. Order bib-overalls for adjustable height. Short, Tall and Extra Tall sizes are custom Made to Order. Regular Standard size is 5'10" to 6'1". Workers under 5'8" or over 6'4" need custom sizes.

#### WORKER BODY MEASUREMENTS

##### WORKER BODY MEASUREMENTS

SIZE	S	M	L	XL	2XL	3XL	4XL	5XL
CHEST (in)	36	39	42	46	50	54	58	62
WAIST (in)	30	33	36	40	44	48	52	56

#### BODY HEIGHT

##### WORKER BODY MEASUREMENTS

SIZE	SHORT	REGULAR	TALL	X-TALL
HEIGHT RANGE (ft)	5'7" - 5'10"	5'10" - 6'1"	6'1" - 6'4"	6'4" - 6'7"

#### GARMENT MEASUREMENTS

##### COAT MEASUREMENTS

CHEST (in)	46	49	52	56	60	64	68	72
------------	----	----	----	----	----	----	----	----

##### BIB-OVERALL MEASUREMENTS

WAIST (in)	34	37	40	44	48	52	56	60
------------	----	----	----	----	----	----	----	----

##### COVERALL MEASUREMENTS

CHEST (in)	46	49	52	56	60	64	68	72
WAIST (in)	36	39	42	46	50	54	58	62

#### GLOVE MEASURING INSTRUCTIONS

1. Measure around the hand at the fullest part.
2. Measure from the tip of the middle finger to the base of the hand.
3. Use the LARGEST of these two measurements for the correct size glove.
4. The number of inches/centimeters measured equals the size of the glove.

#### GLOVE SIZING CHART

SIZE	XS	S	M	L	XL	2XL
INCHES	7	7.5	8.5-9	9.5-10	10.5-11	11.5-12

*Take measurements from your dominant hand!*

- B. HAND LENGTH

**True Color Grey is a medium density filter that allows all visible light to pass through without causing any color distortion.**

Our patented TCG™ Technology has finally solved the biggest issue electricians face when wearing appropriate Arc Flash protection. Historically, they have always experienced color distortion when looking through their protective shields.

The end result is a nearly clear experience for the worker when performing electrical tasks. With the advent of this new technology electrical workers will no longer struggle to see colored wires or electrical tape while working energized.

*Color distortion without TCG Technology.*

*Looking through shield with TCG Technology.*

## TCG™ ARC FLASH FACE SHIELDS

Oberon's innovative True Color Grey (TCG) arc flash face shield features a patented nearly clear technology that allows for maximum color acuity while performing common electrical work tasks.

Made from a durable polycarbonate and includes an anti-scratch resistant and anti-fog coating.

Meets ANSI /ISEA 125 Level 2 Conformity and Arc Flash PPE Category 2 standards with an arc rating of 17 or 30 cal/cm<sup>2</sup>. Please refer to NFPA 70E or CSA Z462 Standards for specific selection requirements.

Available accessories include a crown mountable shield light.

## 12 CAL LAN™ ARC FLASH KIT

Arc flash suit set is made from an inherently flame resistant fabric and comes equipped with a hood, coat, and bib overalls. A front mounted L.E.D. light and fresh air hood ventilation system can be added to the hood for increased comfort and vision while performing electrical safety tasks.

Hoods utilize a patented True Color Grey (TCG™) arc flash face shield technology which produces no color distortion while performing common work tasks and comes with a scratch resistant, anti-fog coating.

Meets ANSI /ISEA 125 Level 2 Conformity and Arc Flash PPE Category 2 standards with an arc rating of 12 cal/cm<sup>2</sup>. Please refer to NFPA 70E or CSA Z462 Standards for specific selection requirements.

Available accessories include storage bags which are sold separately.

## LAN40™ ARC FLASH KIT

Nearly clear TCG™ hood window provides 100% true color acuity and includes anti-fog and anti-scratch resistant coatings. Hood comes equipped with an optional ventilation system and/or LED light for maximum comfort and vision while working.

Suit made from a blend of arc rated, inherently flame resistant fibers and contains no velcro, making it the perfect choice when frequent laundering is needed.

Meets ANSI /ISEA 125 Level 2 Conformity and Arc Flash PPE Category 4 standards with an arc rating of 42 cal/cm². Please refer to NFPA 70E or CSA Z462 Standards for specific selection requirements.

Coat comes with a knit cuff and a zipper front closure. The bib overalls have adjustable suspenders for easy on/off.

# GLOVES

### What protection do Rubber Insulating Gloves provide?

Rubber Insulating Gloves are designed and constructed to act as a barrier between the user and the energy/voltage, to insulate the user from electric shock. The ASTM D120 standard outlines the protection that the glove provides. The rubber gloves are thicker as their protection increases. The rubber gloves will provide protection against either Alternating Current (AC) as well as Direct Current (DC), up to the levels detailed in the standard as well as typically on the labeling, which is required to be affixed to each glove. It is important NOT to exceed the USE voltage detailed to avoid injury.

#### RUBBER GLOVE CLASS

10	ANSI/ASTM Class 00	MADE IN USA	D120 Type 1	TASK UP TO 500 VAC	TASK UP TO 750 VDC
10	ANSI/ASTM Class 0	MADE IN USA	D120 Type 1	TASK UP TO 1000 VAC	TASK UP TO 1500 VDC
10	ANSI/ASTM Class 1	MADE IN Malaysia	D120 Type 1	TASK UP TO 7500 VAC	TASK UP TO 11250 VDC
10	ANSI/ASTM Class 2	MADE IN Malaysia	D120 Type 1	TASK UP TO 17000 VAC	TASK UP TO 25500 VDC

#### GLOVE MEASUREMENT GUIDE

A. HAND CIRCUMFERENCE

B. HAND LENGTH

#### MEASURING INSTRUCTIONS

1. Measure around the hand at the fullest part.
2. Measure from the tip of the middle finger to the base of the hand.
3. Use the LARGEST of these two measurements for the correct size glove.
4. The number of inches/centimeters measured equals the size of the glove.

#### GLOVE SIZING CHART

SIZE	XS	S	M	L	XL	2XL
INCHES	7	7.5	8.5-9	9.5-10	10.5-11	11.5-12

*Take measurements from your dominant hand!*

- Ultralight gloves are made from a proprietary blend of arc rated, inherently flame resistant, aramid fibers.
- Gloves are the perfect solution for thermographers or any electrical worker that needs arc flash protection for their hands.
- TCG™ Series arc flash gloves meet ANSI /ISEA 125 Level 2 Conformity and Arc Flash PPE Category 3 and 4 standards with an arc ratings of 25 cal/cm<sup>2</sup> up to 140 cal/cm<sup>2</sup>. Please refer to NFPA 70E or CSA Z462 Standards for specific selection requirements.

# ACCESSORIES

## Cooling Vest

MFG#	DESCRIPTION	COLOR	UPC
CV-ARC-REG	Arc Flash Cooling Vest	Khaki	731406324253
CV-PACK-EACH	Vest Replacement Pack	Brown	731406324307
CV-PACK-SET	Vest Cooling Pack Set	Brown	731406324314

Oberon offers a flame resistant cooling vest that can be worn underneath your arc flash suit to keep cool. It has adjustable straps to make customizing your fit quick and easy. The set includes 8 aqueous non-flammable gel packs.

### Hood Ventilation System

MFG#	DESCRIPTION	COLOR	UPC
HVS-4B-PM	Hood Vent Sys	Blue	731406327414
HVS-MOTOR-4B	Replacement HVS Motor	Blue	731406389252

Keep cool when wearing your Oberon arc flash suit with our fresh air hood ventilation system. Kit includes fan motor, bladder and fire resistant hose and can easily be installed in any TCG™ or LAN™40 Series Hoods.

### Hood & Shield Lights

MFG#	DESCRIPTION	COLOR	UPC
SHIELD-LIGHT-K	Shield Light & Adapter	Black	731406485404
LED_LAMP	L.E.D. Lamp	Grey	731406390319

Oberon's hood mounted lamp can add some needed light when working in dark conditions or when looking into electrical panels. Light easily clips onto the front of hood and can easily be adjusted to point light in whatever height is needed. The shield light kit comes equipped with the light and all the necessary mounting hardware.

### Escape Strap

MFG#	DESCRIPTION	COLOR	UPC
+ES	Escape Strap	Yellow	731406505461

This continuous loop Kevlar strap can be added to any TCG™ Series suit coat. This 10' long strap can be used to drag a worker from harms way or as a secondary communication device.

# BAGS+BLANKETS

### Storage Bags

MFG#	DESCRIPTION	COLOR	UPC
KITBAG	Deluxe Arc Flash Bag	Blue	731406317446
STORAGEBAG-NAVY	Arc Flash Kit Bag	Navy	731406317460

GLOVEBAG-CNVS12	Rubber Glove Bag	Beige	731406347665
GLOVEBAG-CNVS16	Rubber Glove Bag	Beige	731406347719

- The Deluxe Bag is perfect for storage of Oberon's hood, coats and bibs and has a hard plastic bottom for added protection.
- The Navy Storage Bag is made from a durable nylon and is an economical solution for storing all your arc flash gear.
- Nylon shield bag is perfect for protecting your face shield hard cap and has a draw string closure.

### Arc Flash Blankets

MFG#	DESCRIPTION	COLOR	UPC	UPC
ARCBKT-15KA-S	Arc Blanket Kit	Khaki	4'x5'	731406317590
ARCBKT-15KA-L	Arc Blanket Kit	Khaki	5'x8'	731406317583
ARCBKT-25KA-S	Arc Blanket Kit	Khaki	4'x5'	731406317637
ARCBKT-25KA-L	Arc Blanket Kit	Khaki	5'x8'	731406317620
ARCBKT-40KA-S	Arc Blanket Kit	Khaki	4'x5'	731406317651
ARCBKT-40KA-L	Arc Blanket Kit	Khaki	5'x8'	731406317644

- Oberon's Arc Flash Blankets are produced and tested in accordance with ASTM F2676 standards.
- The blankets are the perfect solution for use in tight spaces such as underground vaults or to create a barrier between the worker and a potential arc flash hazard.
- The blankets come with arc tested mounting straps and storage bag. Two break-open thermal protection levels are available 15kA (BTP 181), 25kA (BTP 270), 40kA (BTP 518).

# ***CURTAIN CUBE***

### Arc Flash Curtain Cube

MFG#	DESCRIPTION	COLOR	UPC
ARCBKT-40KA-CUBE	Curtain Cube	Yellow	731406518058

- Portable cube is made from a durable Aramid fabric that is tested and designed to divert energy away from the worker while performing every day electrical tasks. It can also serve as an additional barrier to safeguard workers that are in close proximity to electrical equipment.
- The cube can be moved from site to site and can be deployed on multiple configurations.
- The 4.5' x 6.5' cube framework is made from a durable Schedule 80 PVC frame and is comprised of 3 Aramid panels measuring 4'x5'. the panels are further reinforced by the use of Kevlar® rope for added strength and stability.
- Anchoring is recommended for holding the structure in place to contain or divert arc energy.
- Meets ASTM F2676 and ASTM F3272 curtain standard and is rated for a maximum arc current of 40 kA (BTP 517).
- Made in the USA

**The Arc Flash Curtain Cube is designed to fold in on itself for easy storage.**
